

THOUSANDS OF HOMES...

ONE AT A TIME

Riverside's #1 Independent Real Estate Company for 33 Consecutive Years

In the 33 years Westco Realors, Inc. has been serving the real estate needs of our Riverside Community, we have sold tens of thousands of homes...*one home at a time*. We don't believe that a business has to make a choice between quantity or quality. We believe you can have it all.

We make this distinction because in our experience, once a company gives up on having both, they either become too big to care, or too small to get the job done properly. Why can't you as a consumer have both? We feel it is possible to enjoy the benefits of the technology and expertise that can come with a large successful business, and also receive the personal caring and service that is part of a more local company committed to the community. We do it every day.

That's why our 50+ Realtors keep it local...keep it personal. We are a large real estate company that has never lost sight that each family we represent has a right to a Realtor that cares...a Realtor that takes each transaction *one home at a time*. Our success comes from remembering that fact, not ignoring it in pursuit of loftier volume goals.

At Westco, we don't feel we have to sacrifice quality just because we also deliver quantity. That's how we can sell tens of thousands of homes, *one home at a time*. We embrace the challenge of giving you both.

We look forward to showing you the **difference that Riverside pride can bring** to your Real Estate transaction.

A Riverside Real Estate Company Proudly Committed to Our Community
